

# PRO360 SUPERFOOD PERFORMANCE BEETS

## ENERGY, PERFORMANCE, TASTE

Better performance starts with better nutrition. We created Superfood Performance Beets, a unique and tasty combination of red beet's energizing strength plus two special blends of synergistic superfoods to help boost and sustain nitric oxide levels.

This gives you greater vitality, recovery, mental acuity, performance, and healthy blood pressure.

This unique performance booster features beets hand-harvested on the high plains of the Tibetan Plateau, with an exclusive, patented blend of polyphenol-rich, heart-healthy plants.

### ELEVATED NUTRITION

Sustainably sourced and harvested high on the Tibetan plateau where the altitude and environment make the beets exceptionally potent.

### BEETS WITH BETTER BENEFITS

A patented Superfood blend with clinically effective levels. Each key nutrient is rigorously tested for potency and efficacy.

### THE FEELING IS REAL

A unique formula that boosts circulation to your organs and muscles for greater vitality, strength and endurance.
